Hi Tom,

Hold that date and time for the web session with S2C2. I am waiting hear from management about who should be invited, and we may have it only for LDF and us, but nothing is set yet.

After we cancelled our session last week, I got a message Thursday afternoon from REI that Cascade was having their own session just a few minutes after I received the message. I'm not sure why we didn't get more notice, but I think they decided to move along without us. I do not believe you were on the recipient list for the notice of the Cascade web session.

We have been having some internal discussions about how to best move ahead on this project.

Please don't share this information.

Thank you.

Subject: Re: Tower Standard model web session

Hi Matt - if the call is at 2 Eastern or later, I can probably make it. I'm traveling to Colorado that morning. I will be at a mine site likely without cell service that evening and the rest of the week. Don't rearrange things on my account. I'll try to make the call, but if not I can catch up the following week. Tom

All,

We are now looking to reschedule the web session for the Tower Standard model generated by S2C2 for one week from today (Tuesday October 11). We will aim for some time in the afternoon (after 12:00 PM EST) and expect the session to last approximately one hour. If you would not be available to participate on this day in this time window, please let me know and we can look at alternate dates.

If I don't hear of conflicts by tomorrow, I will send out another Outlook invite.

Thank you,

--Matt

Subject: Canceled: Tower Standard model web session

When: Thursday, September 29, 2016 10:00 AM-11:00 AM (UTC-09:00) Alaska.

Where: Web Session

Importance: High

All,

I've heard back from nearly everybody on availability, and it looks like 2:00 PM Eastern/1:00 PM Central/10:00 AM Alaska is the best time for a web session to go over the Tower model. We're hoping to keep it to less than one hour.

Jason Ruf from S2C2 will be leading the session and will send a link prior to the meeting time.

Thank you,

--Matt
